Ken of Sport Against Racism Ireland

08:44:34 From Simon Lansley To All Panellists: Thank you Sunday, great input

08:46:32 From toshi To All Panellists: What has been the impact of the closure of the UN Office on Sport for Development and Peace for UNHCR works with sports for protection. Has it been fully internalized in UNHCR and/or in partnership with other sport-based organizations?

08:47:11 From nicolasmessner: Will there be a written transcription of the interventions?

08:47:58 From Irene Kamberidou To All Panellists: Irene Kamberidou from the School of Physical Education and Sport Science of the National and Kapodistrian University of Athens. Yes, indeed as social glue, as social capital....

08:48:30 From Rachael Jefferson-Buchanan To All Panellists: what was the second one as a title? 1. sport as medicine, 3. sport as social cohesion. 2. was??

08:48:41 From Ben Sanders: We will share a recording of the webinar on sportanddev in the next day or so

08:49:18 From marion keim To All Panellists: Great! Thank you;-)

08:50:37 From Ben Sanders: Not sure about a written transcription but we can ask the presenters...

08:51:07 From Beyza Canbaz Kılıç To All Panellists: Hi everyone! I'm Beyza, PhD student at Hacettepe University, Turkey. In my master thesis, I studied with Syrian refugee women in Turkey on their pre-migration and post-migration physical activity experiences in the context of acculturation theory. Thanks for this important webinar.

08:51:51 From Mridul Kataria: Hello everyone, you can find an overview of the upcoming 'sports and refugees' section on sportanddev.org here: <https://www.sportanddev.org/en/article/news/sportanddev-launch-online-section-sport-and-refugees>

08:52:05 From Simon Rosenbaum : Given the evidence around the mental health benefits of physical activity, particularly for the most vulnerable, what needs to happen to ensure physical activity is recognised and funded as a routine component of mental health and psychosocial support (MHPSS) in humanitarian settings?

08:52:28 From Chikara Uchida To All Panellists: You can use this website for transcription: otter.ai

08:52:48 From Ken Mc Cue (Sport Against Racism Ireland) To All Panellists: I agree with Prof. Ramon, we should work with the assets of our refugees, not just the needs. We work with young sports men and women with many languages and intercultural competences. How can we adopt this methodology? Ken from Sport Against Raciam Ireland

08:53:13 From Johnny Gerges: @Simon, I would say M&E, being able to measure based on well-being pillars and other Cohesion and inclusion indicators :-)

08:53:13 From Raffaella To All Panellists: Fully support and agree with Simon!

08:54:06 From Antonio Carvalho To All Panellists: I deleted the chat messages by accident but wanted to reach out to Mr Wang who shared his contact with us. I too am working on safeguarding in sport, so please do get in touch. Thank you!

08:54:59 From Rachael Jefferson-Buchanan To All Panellists: When we say 'sport', does it have to always be traditional (and competitive) team games in the panel's views? I'm interested in the connections and disconnections between social cohesion and competition. Thanks :)

08:55:51 From Ken Mc Cue (Sport Against Racism Ireland): It is a shame that the Government of the Irish Republic refuses to take more than FOUR young people from the Moria fire in Lesbos. We have a very small population of five million and have the capacity to take many many more. How can international pressure be applied to our government to take the Refugee situation seriously. Ken of Sport Against Racism Ireland

08:56:32 From Kristin Richter, GIZ S4DA : fyi here a training of trainers manual which was developed in Kenya together with coaches from Turkana West (Kakuma Camp and host community areas) and partners focusing on violence prevention and peace promotion within the displacement context <https://www.sport-for-development.com/imglib/downloads/giz2018-en-s4d-manual-violence-prevention-through-football-kenya.pdf> and the drill books <https://www.sport-for-development.com/imglib/downloads/giz2018-en-s4da-drillbook-violence%20prevention-through-football-kenya.pdf>

08:57:30 From Elena Haro To All Panellists: Given the need of usually implementing sports activity in-person, poses a new threat for the continuity of sports projects, how can this be overcome in post COVID-19? How to still promote sports for protection in this context?

08:58:30 From Justin Robar: Dr. Spaaij, what is the best approach to take to put theoretical and critical research in academia into practice for refugees and other sport for development programming?

08:59:04 From Antonio Carvalho: I deleted the chat messages by accident but wanted to reach out to Mr Wang who shared his contact with us. I too am working on safeguarding in sport, so please do get in touch. Thank you!

08:59:52 From Michael Hickey To All Panellists: Set up programs in Cagayan De ORO city Mindanao Philippines where there a huge need

09:00:22 From Sven Spannekrebs To All Panellists: Does the Refugee Olympic Team have an influence on the refugee sports projects in camps and on their participants? For example, I know that Yusra reaches many people with her story. Is this helpful?

09:01:31 From Brett Osler (Perth): @Ramon - are you seeing self-determination as the key to progressing the rights and aspirations of refugees and that sport is a key platform for that?>

09:01:47 From CHUNGUANG WANG: Hi Antonio, no worries! 'This is Chunguang Wang, Graduate from EU Erasmus+ Master in Sports Governance and Integrity. 09:02:11 From Elizabeth: Sadly, I need to go now, but will catch up on the recording! Thank you for a fascinating event!

09:03:11 From Hayley Truskewycz To All Panellists: How can researchers and NGOs maintain a high level of ethical rigour when working in this space? What are some of the key considerations at the core of "the role of sport in protecting and ensuring rights of refugees. "

09:03:52 From Venancius Rukero To All Panellists: greetings from Namibia. My name is Venancius Rukero. I'm the Interim President for the the Confederations of Africa Dance Sport headquarters based in Namibia. We would like to involve refugee dancers from Africa & Diaspora how can we engage African refugee dancers for inclusion. My contact is mobile +264812391244 Email: president@africadancesport.org / dancesportnamibia@gmail.com. kind regards.

09:03:57 From Hilda Milka To All Panellists: I'm Hilda from Kenya. In the context of social inclusion, is there any focus given to participation of the host community in the sports activities as well

09:03:57 From Fredrik Ødegaard: Well said, Sunday: "I play football because its fun". We should not forget that children and young people come to the playing field to play (sports), not to learn life skills or to be sensitized. Sometimes, only providing the opportunity to play in a safe and competent environment is enough.

09:04:07 From Ben Sanders: Just a note that the new section on Sport and Refugees on sportanddev.org will include tools and resources, including for M&E and Research

09:04:15 From Venancius Rukero: greetings from Namibia. My name is Venancius Rukero. I'm the Interim President for the the Confederations of Africa Dance Sport headquarters based in Namibia. We would like to involve refugee dancers from Africa & Diaspora how can we engage African refugee dancers for inclusion. My contact is mobile +264812391244 Email: president@africadancesport.org / dancesportnamibia@gmail.com kind regards.

09:04:20 From Hilda Milka: I'm Hilda from Kenya. In the context of social inclusion, is there any focus given to participation of the host community in the sports activities as well

09:04:21 From Lee Parker- Laureus To All Panellists: great focus on designing programmes and ensure they are not parachuted in and are hit and run tactics to just engage. Local ownership is key but also managing expectations from funders to fund multiyear work and understand a new programme takes time to establish key foundations such as local coach capacity development. Get these key elements in place for a solid foundation that will pay off in the longer run.

09:07:19 From Chris Stone: @Hilda - This is important. What are panellists' experiences of how different members of the 'host community' interact with refugees through sport or can be educated about forced migration through sport? Thanks, Chris Stone (Liverpool Hope University)

09:08:35 From Simon Rosenbaum : If anyone's interested specifically in the mental health benefits of physical activity in refugee contexts, we made an animation in Rohingya language based on published research we conducted in Bangladesh – https://www.youtube.com/watch?v=n9IQL_vkk1U&app=desktop please get in touch if anyone has similar interests around sport/mental health, would love to chat - s.rosenbaum@unsw.edu.au

09:11:09 From Simon Rosenbaum: Here's the published paper: <http://www.interventionjournal.org/article.asp?issn=1571-8883;year=2019;volume=17;issue=2;spage=140;epage=148;aulast=Wells>

09:11:28 From Jack Sugden: Great thanks Simon

09:11:45 From Lucas Capalbo: QUESTION: Including refugees in existing clubs seem to be a great strategy to include athletic talented refugees in the society of resettlement. However, coaches in competitive teams are pressured to focus on performance over integration and are usually not trained for such. What advice can you give to coaches/clubs struggling to give enough attention to the integration of refugee athletes while focusing on performance?

09:12:00 From nicolasmessner: When you have a few minutes, watch the film we made in Kilis Turkey a few years ago: <https://youtu.be/utJCdr5UKIA>

09:17:51 From Rana Fouad: <https://www.sportanddev.org/en/article/news/empowering-children-and-young-people-through-sport-egypt>

09:19:18 From Maria: Can SDP project sustainability be ensured after the implementing organization has pulled out? Thank you

09:20:22 From Justin Robar: Maria, if the organization accounts for long-term sustainability from the start, local individuals can be upskilled to run the program efficiently and effectively long-term once the change agent has left the community.

09:20:54 From Jadranka Stikovac Clark To All Panellists: Great question Maria—possible but requires setting up programme from the beginning with the exit in mind

09:20:59 From prasenjit dutta To All Panellists: agreed...

09:22:00 From Lin Sambili Gicheha: Thank you, Sunday.

09:22:03 From Karen: Would any of the female parents or players not on the field (if there) be trained as refs? Gender parity is a problem at all levels.

09:22:09 From Raffaella To All Panellists: in this link you can find history of Anti-racist world cup we organised for more than 20years. In particular involving refugees in the tournament. It's all about Mondiali Antirazzisti https://m.facebook.com/MONDIALIANTIRAZZISTI/?locale2=it_IT

09:24:40 From Antonio Carvalho: in response to Sunday's question about how to support

09:24:41 From Kristin Richter, GIZ S4DA : Football Kenya Federation (FKF) has now a women quota in all its trainings, the Kenyan Ministry of Education is currently developing a P.E and Sport policy for Basic Learning where training of adequate P.E teachers is part of it

09:24:58 From Venancius Rukero: thanks Karen for your questions. Sunday from the chat how can we get in contact with you?

09:25:17 From Femi abioye To All Panellists: what is CAF doing to support football for Development on the continent?

09:26:01 From toshi To All Panellists: I do wish to support with materials and coaching as required to refugee camps. What is difficult is to have a real interests and facilitation to get to the refugee camps and the people who wish to have such an opportunity.

09:26:32 From prasenjit dutta To All Panellists: an integrated system need with perfect cooperation with all the factors local to global. then only local can be developed to sustain the project.
