Hii Greetings of the day. My name is Pritish Sharma from Pathankot District in Punjab in India. I am 22 years old and in 2019 I completed my bachelor's in science (Bsc) and I am very enthusiastic to work in the field of football for needy ones (Humanity). As I am helping young brilliant needy champs (you will get link of that while scrolling down) but I need your support to take mine initiatives to great height and socialable levels and reach more and more needy champs. I alone work for humanity and help players somehow by providing sports kits and platforms am doing a lot for betterment of sports in mine district but all don't take it seriously.
"VISION OF FOUNDATION"

Born to play and conquer sports "irrespective of caste colour creed and background.

"Football For All" the name that will be of mine foundation is a foundation that will work to ensure every child enjoys the life changing benefits that come from play and sports.
I have seen no development in mine area because many champs are not financially strong also some problems are obstructing them to achieve their dreams. After so much of hurdles I contacted you. Actually the thing is that many champs in my area are very fond of games and they have raw talent that's what our champs are known for but no platform and infrastructure to showcase their talent. As you see a lot of raw talent you will be able to see but they have to suffer somehow and this really breaks them and hurts them a lot as many have suffered including my friend and I had seen him crying and I have promised myself that in future I will not let that happen again to someone.
"IDEAS"

- I want to provide platform to young champs by providing them Good grounds and facilities (coaches +education) so that they can practise here freely and help them compete with other good teams.
- Somehow I am also trying to provide them coaching facilities ones but lack of sports infrastructure and Investment.
- I am planning To work on women and girls Football also as this will be for women empowerment.
- Sir or mam it's like I want to start a foundation so that I can help them provide platform where they can play and show their talent.
Like its my plan to provide sports infrastructure to needy ones first here at mine area and afterwards regionally and after that to all over India to help Young budding champs who are not financially strong as you see I am so enthusiastic wend positive to work for humanity.

I want them to learn social values and moral values by the power of football.
"PLANS & THINGS THAT FOUNDATION WILL COVER"

• My plan is to provide infrastructure (ground+equipments+Coaches+residensial rooms+seating capacity+lights) where they can play and also to one's who can't pay money despite having good talent but no exposure and no eye on them and also to one who give up ending sports due to financial crisis.

• Making a turf field as it will be used by champs for playing and sharpen their skills. This will help young champs in a very positive approach and also in a better way.
• I want them to participate in a tournament and to play at elite level and also my plan is to conduct a league and tournament where players can come and showcase their talent.

• In that playfield the champs will play and will sharpen their skills under proper coaches and teachers.

• In that playfield the champs will play and will sharpen their skills under proper coaches and teachers.

• I will give them foreign exposure also so that they can learn with great brilliant players around the world. I will also team up with government organization to give them the helping hand.
• My key note will be eyeing on the champs and children's who are good in playing and studies from backward areas and villages despite caste/colour/creed.

• My one more aim to Include Childers who are good in studies but not financially strong to continue their further studies by providing them free education under the guidance of proper teachers and also impact leadership qualities in them.
