Ted Talks Presentations

We envision this event as a perfect ‘warm up’ to the Women Deliver symposium: *Girl Power in Play*, as it will give us time to ask questions, seek answers and become more comfortable with identifying what we still do not know or understand about the links between girls, sport and development. We seek to create a positive, stimulating space where you can ask questions, learn something new and leave feeling inspired. To this effect, we welcome all, whatever your interest, experience or understandings of research may be.

In order to create a more dynamic and engaging event and not a traditional research conference, the presentations are being delivered as Ted talk-style presentations. Presenters will have five (5) minutes to deliver remarks to the large group. We know that this is brief, but please note that we have added time for discussion and reflection throughout the day so there will be ample time to consider the ideas being sparked in the presentations.

Presenters: Please note that we will keep everyone to the 5 minute rule, so please practice your remarks!
