Fútbol Más is an international NGO with experience in sport for development thanks to 10 years of learnings in Latin America, the Caribbean and Kenya. The project is present in 7 countries around the world and with approximately six thousand children participating.

In Nairobi we are in Mathare and Kibera, two informal settlements where up to 500 children are participating in our programme, going through our curriculum and methodology with the support of their families and communities.

We are currently preparing for next year and hiring more community coaches. We are looking for professionals from sociology, psychology, education, social work, physical education or related careers or matched by community work experience. Only apply if community empowerment, teaching through games and kids are your thing! We offer a full-time job and especially encourage female candidates to apply.

If you are interested to be part of our team, don´t hesitate and send us an email with your CV and cover letter before Sunday 5th November to: seppe.verbist@futbolmas.org
