Laureus USA is seeking an experienced measurement consultant to support achievement of key objectives for the New Orleans Sport for Community Coalition’s (NOSCC) Shared Impact Measurement Working Group.

OBJECTIVES:
- Assess the monitoring, evaluation, and learning capacity and systems of NOSCC member organizations, including current measurement practices and gaps in knowledge / skills
- Create the tools, processes, and systems, to ensure that shared data collection is fully implemented across the NOSCC

CONSULTANT WILL:
- Assess the monitoring, evaluation, and data collection capacity of 20 local non-profit organizations
- Generate a list of all measurement practices currently implemented by Coalition partners
- Referencing the NOSCC Theory of Change and current measurement practices, create a framework of measurable indicators for NOSCC programs
- Develop a data collection tool for all NOSCC members to implement that tracks collective outcomes achieved by the group
- Provide training as necessary to ensure that all NOSCC members are well equipped to implement the shared measurement tool and return quality data

SUCCESSFUL APPLICATIONS WILL POSSESS:
- Demonstrated experience as a consultant for non-profit organizations
- Demonstrated experience conducting assessments of organization evaluation capacity and implementing trainings to provide upskilling and fill gaps in knowledge and capacity
- Demonstrable measurement, evaluation, and analysis skills, including experience creating indicators, surveys, and tools
- Experience implementing shared measurement practices across multiple organizations
- A broad understanding or interest in the sport for development sector and community driven work
- Excellent interpersonal and communication skills

The budget for this project is $20,000. The timeline for this work is between March - July 2017.

Interested applicants should submit a resume, detailed proposal and timeline for work (not to exceed 2500 words), and contact information for two references to katherine.tomaino@laureus.com by 5pm EST on February 27, 2017.
